SUMMARY

Final-year **Computer Science** student and **Full-Stack Developer** possessing strong skills in programming, data structures, and problem-solving. Passionate about building impactful, real-world projects that enhance my technical abilities. Actively seeking opportunities in **innovative tech environments** where I can contribute creatively, drive productivity, and grow with emerging technologies.

Technologies

Languages: Java, JavaScript

Technologies & Frameworks : Node.js, Express.js, MongoDB, SQL, HTML, Bootstrap

Tools & Platforms : Git, REST API Development, AWS Lambda, DynamoDB

Education

Parul Institute Of Technology 2022 – 2026
B.Tech Computer Science and Engineering
◦ GPA: 8.29/10 ([Link](#) 🔗)

DON BOSCO CONVENT SCHOOL JHANJHARPUR MADHUBANI 2019 – 2021
12th
◦ Percentage : 82.80/100

Devasthali Vidyapeeth Chilkahar Ballia UP, Ballia 2019
10th
◦ Percentage : 91.60/100

Experience

Backend Developer Namakkal, Tamil Nadu
HertzworkZ Jan 2025 – Apr 2025
◦ Developed backend services using **Node.js** focusing on performance and scalability.
◦ Built and deployed **AWS Lambda** functions to enable serverless architecture.
◦ Integrated and managed **DynamoDB** for efficient NoSQL data storage and retrieval.
◦ Contributed to **REST API** development and implemented proper request/response handling.
◦ Created and maintained **API documentation** to ensure clarity and usability for the front-end and QA teams.

Projects

Hostel Management System github.com/shivkumar9693 🔗
◦ **Engineered** a role-based web application with Admin, Subadmin, and Student panels to manage hostel operations.
◦ **Implemented** mess menu control, feedback monitoring with image support, and notification management for the admin module.
◦ **Enabled** students to access menus, receive announcements, and submit feedback with optional images.
◦ **Designed** a Subadmin interface for localized hostel oversight and coordination with admin.
◦ Tools used: Node.JS, Express, MongoDB, EJS, JS, CSS, Joi, Bootstrap

Job Portal

github.com/shivkumar9693

- **Constructed** a job portal using **Node.js**, **Express**, **MongoDB**, and **EJS** with full **CRUD functionality** and RESTful routing.
- **Utilized Mongoose** for schema modeling and **method-override** for extended HTTP support.
- **Devised** a dynamic notification system to alert users of new job postings and inform applicants of real-time application status updates .
- **Incorporated** an approval system for accepting or rejecting applications with feedback alerts.
- Tools used: Express.js, Node.js, EJS, MongoDB, Bootstrap
